Adir Miller's *The Ring*

When Yaki discovers that his only inheritance is a priceless dove, it's already too late. Together with Bilal, his childhood friend, and their wives, he embarks on a wild road trip across Israel and Palestine to bring Bella back. They'll get stuck at checkpoints, ruin a wedding, steal a car, join a reconciliation ceremony, and even revive an unconscious dove--- all racing to not miss the Jerusalem Dove Beauty Pageant.
